Wabash preferred, 17,600; Western Union, In a general way the average Wall-street habitue was prepared, after the close of business Thursday, for probable depression in the stock market yesterday on account of the Venezuelan message episode and the renewed heavy outward movement of gold. The actual developments of the day accordingly caused a sensation in financial circles that has not been equaled since the Baring panic; in fact, in some particulars, that gloomy event was overshadowed in point of interest. The first shock came in the shape of a panicky market in Amertean securities in London, with declines extending to 5 per cent. British consols ilso came lower. The successive cables reported great excitement at that center and wholesale liquidation of the international stocks at rapidly receding figures. Before the opening at New York it was definitely stated by gold shipping houses that \$2,go out to-day would be arranged for at once. The combined influence of the developments noted was reflected in a wild opening in the New York stock and bond rarket. Trading was very heavy from the outset, and in the initial dealings breaks oc-

curred, extending to 4½ per cent. in St.
Paul. After a momentary recovery of 1 to
1½ per cent. a fresh outpouring of stocks
occurred which, as in the case of the London selling, reflected chiefly liquidation by
scared holders and prices crumbled right
and left. Stop orders were caught in large
numbers and this, of course, accelerated the downward movement. Slight rallies occurred several times during the forenoon, but the ntinued selling pressure swept them away. lowest prices, extending to 15½ per in Lead preferred, were made around Rubber preferred dropped 17% per Other extreme declines were in Con cent. Other extreme declines were in Con solidated Gas, 13: Louisville & Nashville and St. Paul, 104; Rubber common, 104; General Electric, 94; New Jersey Central and St. Paul & Omaha, 9; Susquehanna & Western preferred, 876; Sugar and Manhattan, 84; Tennessee Coal and Laclede Gas, 84; Lake Shore and Lead common, and Lake Eric & Western, 8; Michigan Central, Northwest, Missouri Pacific and Burlington, 74; Chicago Gas, 74; Delaware & Hudson and Pullman, 7 per cent. A great many declines, material, but less extensive than the ones noted, occurred in other stocks. Incidental to the failtares of S. S. Suffider & Co., Nicholas Frothingham & Co. and De Neufville & Co., which were announced, sales, of securities under the rule were made. The volume of business was on a tremendous scale. The dealings in

Trading in bonds was also on an almost correspondingly large scale and the losses ranged up to 15 per cent. in Wisconsin Cen-Grease—White, 3%c; yellow, 3c; brown, 3c. Tallow—No. 1, 3%c; No. 3, 3%c. The unfavorable general conditions affecting the speculation were aggravated by sensational advances in the cell money market. The first figure quoted was 6 per cent., and by 12:30 o'clock the price was bid up to 25 per cent. Large sums were loaned at and between these figures. The sterling exchange market also (The quotations given below are the sellruled firm and higher, actual rates for demand rising \(\frac{1}{2} \) do over yesterday's rates, while several leading firms advanced posted quotations for sight bills to \(\frac{1}{2} \). The railway and miscellaneous bond market was in as demoralized condition as the share market, and heavy blocks of bonds were thrown over on liquidating orders. The foreign selling was very large and the international issues sustained material losses. On this class, Kansas & Texas seconds dropped 13% per cent., to 40%, with a subsequent recovery of half the loss. Wisconsin Central first trust receipts foll away 15 per cent. to 30, and closed at 36. Sales of Kansas & Texas seconds were made under the rule for account of one of the failed firms. In sympathy with the stock market there was a sharp raily on the late afternoon trading, the recoveries in prices reaching 6 per cent. Deals of the failed firms of the failed f

ings were on a heavy scale, aggregating \$3,248,000, or about three times the recent Government bonds sagged sharply on sales of \$20,000, the new fours falling off 11/2 per cent. State bonds were heavy, particularly for Virginia centuries. The dealings footed The following table, prepared by James E. Four days of rain has cut into trade per-

ceptibly. With the dry-goods houses, gro-

prices is the leading characteristic. The

hide market shows more activity and prices

are firm at the slight advance of Thurs-

business is in progress, but considerable

complaint is heard when business is com-

CHICAGO GRAIN AND PROVISIONS MADE QUICK DECLINES.

Trouble in the Stock and Money Mar kets Reflected on the Western Board of Trade.

CHICAGO, Dec. 20 .- Depression took possession of wheat operators to-day at the opening of the session and gripped them so tight that there was no escape during the entire course. Compared with last night, wheat closed 1%@1%c lower, corn 1/4c lower, oats 1/4c and provisions 10@121/2c lower.

Wheat opened weak and finally became panicky, selling off before noon 11/20 from the close last night and there was no material reaction. The disastrous panic in stocks set the pace for wheat, for outside news was not much worse than yesterday. Northwestern receipts were the smallest for some time and while the rain had filled the ground with the moisture, there was some danger of a cold wave which could hardly fail to injure it more or less. But the conditions abroad were such as to thoroughly demoralize it. There was a panic in American securities on the English stock exchanges, where nearly everything American was being pressed for sale. This was soon reflected in the New York stock was soon renected in the New York stock market. Gold shipments were expected to increase, confidence was speedily eliminated and wheat commenced to follow stocks. Longs made haste to liquidate so that before noon the price had dropped 1%c from the close yesterday. Even the shorts who had a big profit did not seem anxious to take it as the considerations seemed to warrant the expectation of setting more warrant the expectation of getting more. So the downward pace was easy and rapid. Some big lines held by private warehouses were thrown on the market and country commission houses sent heavy selling orders. New York was an aggressive seller from the start and kept it up with vigor. It is said that the Wall-street clique let go almost its entire line of long wheat. May sold early at 58½ 658½ c, being quite unsettled, but sold quickly to 58½ c up to 58½ c en buying by Armour, who is said to have taken over 1,000,000 bushels, then off to 57½ c, and at noon was 57½ c. There was some reaction during the last hour and May sold to 57% c, but off by 1 o'clock to 57½c, closing at 57½@57‰c.

Corn was heavy, influenced chiefly by the slump in wheat. The bad financial conditions were a factor and more long stuff

came out. The continuous rains in the country and prospective falling receipts served in a measure to check the weakness. May sold from 28c to 27%c. The market held quiet during the last hour and closed at 27%c.

Oats were heavy, but without any very serious break. May sold at 18%c to 19@ 19%c. There was a steady decline during the final hour, with May at 18%@19c, where

Provisions started weak on account of the heaviness in grain and in railroa stocks. Those features continuing through out the session prevented any but a very limited change in feeling. The reactions from the bottom prices of the day were small and the close showed the following losses: Pork, 121/2c; lard, .05@.071/2c, and Estimated receipts for Wheat, 170 cars; corn, 265 cars; oats, 14

CONDITION OF TRADE THE WAR SCARE NOT FELT AS MUCH

Dun & Co. and Bradstreet, in Their Weekly Reports, Call Attention to Certain Changes.

AS WAS TO BE EXPECTED.

NEW YORK, Dec. 20 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say: The strong Americanism of the President's message has given its character to the week. Popular feeling was profoundly moved, but excepting in stock and cotton markets business was remarkably dull and scarcely affected. Selling of securities held abroad was a natural first impulse, though the sellers are not unlikely in time to discover that no other securities are safer from international complications than the American. Coming at a time when nearly all produce markets are inactive and industrials unusually dull, the disturb-

ance has affected values much less than might have been expected. Not because of any foreign question, but solely because of influences which have been in continuous operation for months, prices of manufactured goods continued to decline. There is no great change in boots and shoes, and in some branches the demand appears a little better, though gradually lower prices are offered, and lead job-bers to look for prices still lower. Shipments from the East are an eighth smaller than last week, but 3 per cent. larger for the month to date. Leather still declines, averaging 2 per cent. lower for the week, though hides at Chicago are scarce and about 2 per cent. higher. Prices of iron and steel have fallen about 3 per cent, for the week, and are now 3 per cent. below their maximum, Bessemer pig and grey forge and most kinds of finished products having yielded more or less. Purchases by the great steel companies, it is now evident, were much in excess of their actual consumption, and it is believed that some furnaces will have to suspend production, as the demand for manufactured products is too small to support the output, esti-mated for the year at 9,375,639 tons by the Pittsburg American Manufacturer. Minor metals are weaker, copper being offered at 10c net. The American production in Noa rise in options, is selling at 13.75c. There is no change of importance in the market for cotton goods, which is not active enough to prevent some accumulation. Print cloths are a shade weaker. The mar-ket for woolen goods has not improved, scarcely any except clay mixtures and a few fancy cassimeres selling at better than last year's prices. Clothiers are not in

haste to contract largely, owing to uncer-tainty as to foreign prices. New orders for the heavy-weight goods are more delayed than usual and remarkably small. Sales of wool are mainly confined to immediate needs of manufacturers, who are Duying little ahead, and for three weeks of December have been 17,179,200 pounds, of which 8,905,100 pounds were foreign, against 16,504,100 pounds in the same week of 1892, of which 4,104,500 pounds were foreign. The imports of woolen goods continue very large, though smaller than a month ago. It sounds strange to hear the many com-plaints of slow collections and scarcity of money at the West on account of the tardy movement of products from the farms, when Western wheat receipts in three weeks have been 18,615,438 bu, against 9,436,324 bu last year, while Atlantic exports, flour included, are only 5,812,337 bu, against 6,463,100 bu last year. The movement of cotton continues comparatively small. There was a shade of advance in the price until foreign questions disturbed the mar-ket, but it closed with 1/4c decline.

Failures for the week have been 377 in the United States, against 349 last year, and thirty-two in Canada, against thirty-six last

port will say: The general business situation has been affected by the precipitation of possible complications with Great Britain. First to feel this were prices of cotton and wheat. The serious nature of the President's statement of the case had the effect here and in London of causing free selling of securities, even in spite of the fact that expectation of war is slight. The most unfavorable feature is continued negotiations and the uncertainty which
